

Where? Max-Planck Institute for Radio Astronomy, Bonn, Germany

When? April 19-20, 2023

16th BONN workshop

The many faces of neutron stars: from gamma-rays to radio and gravitational waves

About:

- Fermi pulsars
- X-ray pulsars
- Discoveries from new radio facilities
- Continuous GW searches
- Magnetars
- NS and FRB link

SOC

M. Cruces,
P. Freire,
H. Hu,
M. Kramer,
K. Lackeos,
N. Langer
and
L. Spitler
